## OPTIMISM

**In Strike Negotiations Is Not So Apparent in Washington**

## THE EIGHT HOUR DAY

**May Never Be Conceded, According to Railroad Executives—President Confers With Heads of Four Brotherhoods But Subject of Conference Is Not Made Public**

(Associated Press Telegram)  
Washington, Aug. 25.—The railway strike negotiations resolved themselves today outwardly at least, into a more or less confused state. Expressions of optimism from both sides were not so free as they were yesterday, and feeling heretofore general among the managers that a plan to include the 8-hour day would be found, was not so evident. Some of the railway executives reverted to their prediction that it never would be conceded.

President Wilson kept his cabinet waiting an hour while he conferred with the four brotherhood heads. All parties to the conference steadfastly refused to say what was talked about.

The railroad executives conferred among themselves during the day and it was thought possible they might later go to the White House. For the executives this statement was issued:

"The executives are understood to be studying the form of a communication to the president."

Some of the more optimistic still hear reports of a final decision being reached before tomorrow night.

The brotherhood heads declared they were standing on President Wilson's plan and had not changed their attitude a particle.

As the conferences among the railroad executives progressed it was said the presidents were standing more closely together for arbitration than at any time since they had assembled here and that some of those who at first were for accepting President Wilson's plan had been brought over to a majority which was described as standing "back to the wall."

It was indicated that the communication being prepared for President Wilson would contain a further insistence on arbitration.

The brotherhood leaders went from the White House to report to a meeting of the men but instead they had nothing particular to communicate.

W. G. Lee of the trainmen gave out copies of an order which he said had been sent by the Northern Pacific Station agents directing them to get local interests to send telegraphic protests to President Wilson against settling the controversy by other means than arbitration. The telegrams, Mr. Lee declared were to be paid for by the railroad, and were evidence of what the men characterize as a propaganda against the president's plan.

President Wilson summoned representatives of the employers and employees involved in the threatened railroad strike to the White House today for conference to discuss proposals which have developed out of his original plan of settlement. Arrangements were made for the representatives of employers to see the president at 10.30 o'clock and for the representatives of the employees later.

Commissioner Chambers of the federal mediation board held a brief conference with President Wilson early this morning. Afterwards he would make no comment on his visit.

The four brotherhood heads said on entering the White House that they did not know why they had been called by the president. It was understood President Wilson wanted to get their views of legislation under consideration to prevent such a controversy in the future.

The four brotherhood heads remained with the president an hour and a half but would make no statement on leaving. The president kept the cabinet waiting for an hour to continue his conference with the railroad men.

"The situation is so far as we are concerned," A. B. Garretson, spokesman for the employees later said, "is absolutely unchanged. No complete concrete proposition to which the railroads will agree has been tendered to us. Our position is exactly the same as it was when we accepted the president's plan. We have deviated from it in no way whatsoever."

Elisha Lee is assistant general manager of the Pennsylvania railway and spokesman for the managers' committee of nineteen. This committee has been empowered to make final negotiations in the railway strike situation.

## ZEPPELINS

**IN RAID OVER EAST COAST OF ENGLAND KILL THREE PEOPLE.**

**Big Craft Blunders Pursuers and Escapes—Property Damage Is Said to be of No Importance.**

(Associated Press Telegram)  
London, Aug. 25.—Three persons were killed and several injured by a Zeppelin which dropped a large number of bombs in the neighborhood of a town on the southeast coast of England early today, says a dispatch to the Exchange Telegraph company. Several houses were damaged. At another place on the southeast coast, many bombs were dropped. One fell into a railway station yard and demolished some railings while another bomb completely wrecked a dairy near by.

Details of the raid by hostile airships, which crossed the east and southeast coasts of England between midnight and three o'clock this morning, as disclosed by the official statement of the war office, show that nine persons are reported to have been injured, some mortally. Other damage effected by the raiders is declared to have been slight. The announcement says:

"Six hostile airships raided the east and southeast coasts of England last night at intervals between midnight and three o'clock this morning. One airship made her way westward well inland. The remainder of the fleet carried out short incursions over the coast. The number of bombs dropped by the raiders has not yet been ascertained. Several bombs are reported to have been directed at ships at sea. The damage effected by the raid was slight."

"In one locality a railway station and some houses were damaged and two horses were killed. At another point two houses were wrecked. Total casualties have not yet been reported. To date, nine persons were reported injured, some fatally."

"Anti-aircraft guns came into action at certain points both on land and from ships at sea. Some of our aircraft went up in pursuit. One aeroplane succeeded in firing on a raider at close range but she eluded her pursuers in the clouds. A further report will follow."

**ATTACK ON LONDON.**  
(Associated Press Telegram)  
Berlin, August 25.—(Via London.)—An attack on London by a German airship was made on Wednesday night, the war office announced today.

**Tax On Insurance Policies Stricken From Revenue Bill**

(Associated Press Telegram)  
Washington, Aug. 25.—Democrats of the senate finance committee, yielding to protests from all parts of the country, struck out of the emergency revenue bill the proposed stamp tax on insurance policies, which proposed a tax of one-half cent on each dollar of premium on all policies, including life insurance.

**NO CARS RUNNING.**  
Chattanooga, Tenn., Aug. 25.—Not a car of the Chattanooga railway moved from the yards today and the strike situation stood practically unchanged.

## HEAVY

**Attack by Germans North of Somme Was Without Results**

## NEW FRENCH OFFENSIVE

**Is Indicated By Heavy Artillery Preparation South of the Somme—Russians Resume Advance Along Entire Turkish Front—Reports On Zeppelin Raid Are Incomplete**

Although the Germans made a heavy attack last night in the Maurepas sector, north of the Somme, the French hold on Maurepas village, complete occupation of which by the French troops was reported last night, has not been shaken, according to this afternoon's official bulletin from Paris.

The assault delivered against Hill 121, near Maurepas was repulsed with heavy loss to the Germans, the statement declares.

Intimations in press dispatches of a possible extension of the French offensive south of the Somme for a distance of 30 miles, from Estres to Lassigny, seem further borne out by today's official announcement of the continuation of heavy bombardment in that sector. The German lines in the vicinity of Lassigny and Roye are being heavily shelled.

Dispatches from Petrograd announce that the Russians have resumed their advance along the entire Turkish front. The armies in southern Armenia have recently shown marked recuperative power after severe reverses, advancing rapidly and re-occupying Mush. The evacuation of Bitlis, 12 miles southeast of Lake Van by the Turks is now reported.

At least one Zeppelin engaged in last night's raid over England worked well inland and unofficial dispatches indicate that the aircraft have appeared near London. The official announcement states that nine persons were injured, some fatally, but that reports on casualties still are incomplete.

## SAY BREMEN WAS CAUGHT IN NET IN DOVER STRAIT

(Associated Press Telegram)  
New York, Aug. 25.—The New York City News Association quotes "an officer of the British merchant marine," who arrived here today aboard the White Star steamship Baltic, as authority for the statement that the German submarine Bremen has been captured by the British and 33 of her crew of 35 made prisoners. The Bremen, according to the account was captured in the Straits of Dover in a steel net on August 2. Two members of her crew lost their lives.

The Bremen, it was said, while enmeshed in the net, was sighted by a British patrol boat, her stern under water and her bow high above the surface. After endeavoring for a time to extricate the wreck, the patrol boat steamed away for Dover with her prisoners.

According to the officer quoted, the British government has maintained silence as to the capture of the submarine, the Amerika, was said to be on the way here and it was hoped to capture her also.

## APPOINTMENT OF ASYLUM HEAD IS UP FOR DISPUTE

(Associated Press Telegram)  
Columbus, Aug. 25.—The reappointment of Dr. E. A. Baber as superintendent of the Dayton state hospital by the votes of only two members of the state board of administration will be submitted to the attorney general for an opinion as to its legality, according to Dr. C. E. Campbell, chairman of state civil service commission.

Dr. Campbell said before accepting the appointment as legal he would ask the attorney general for an opinion as to whether the votes of only two members, D. S. Creamer and T. E. Davey were sufficient to elect Dr. Baber. Dr. E. H. Rorick, another board member, voted against Dr. Baber.

Mr. Philbrick contends, it is said, that an election is legal if only three members of the board are present and a majority of those present vote for any person on the eligible list.

## HOUSE ACCEPTS ARTICLES OF WAR IN ARMY BILL

(Associated Press Telegram)  
Washington, Aug. 25.—The army appropriation bill vetoed by President Wilson because of provisions in its revision of the articles of war was accepted by the house today with a revision approved by the war department and now goes to the president for signature. Chairman Hay of the military committee, author of the provision which drew the veto, made no fight.

## THREE CANDIDATES FOR SAME STATE OFFICE IN ONE TOWN

Left to right: Edward Schoeneck, Clarence Z. Spriggs and Thomas Kreuzer.

For the first time in the political history of the United States, three candidates for lieutenant governor in three different parties have been selected from one city. The three men are Lieutenant Governor Edward Schoeneck, of Syracuse, New York, Republican candidate to succeed himself; Thomas Kreuzer, Democratic candidate for the office, and Clarence Z. Spriggs, who has just been named for lieutenant governor on the Prohibition ticket.

## ATTORNEY

**HELD IN CLEVELAND ON ARSON CHARGE WITH SEVERAL OTHERS.**

**New Angle to Auto Theft Cases Develops During Police Investigation—Wanted Insurance.**

(Associated Press Telegram)  
Cleveland, Aug. 25.—Sheriff Ballard of Geauga county arrived here today with a "John Doe" arson warrant for Attorney Samuel T. Haas of Cleveland and Samuel Cowan, local real estate dealer was released on \$500 bail this morning at Chardon, O., after arrest on a charge of arson. These were today's developments in connection with the case of Fred M. McClure, until recently a local newspaper circulation manager, who was arrested on Tuesday on an automobile theft charge.

Chief Detective Gleason Rabshaw says McClure named Haas and Cowan in connection with the burning of a house and two barns on a farm near Chardon, June 10. It is alleged Haas, Cowan, McClure and a fourth man entered into an agreement to collect insurance after the fire.

## ANOTHER ARSON PLOT.

(Associated Press Telegram)  
Columbus, Aug. 25.—Officials of the state fire marshal's department who arrested John T. Beckett of Raymond, Jefferson county, in connection with an arson case announced today that they believed they had uncovered a small arson trust. Assistant State Fire Marshal Charles Miller, who arrested Beckett, says he has obtained a confession from the man and expected to make other arrests.

Following a fire at Beckett's home Miller is said to have found a shed filled with household goods which Beckett declared had been destroyed when his home burned. Among the goods in the shed Fire Marshal Miller says, were four revolvers, two rifles and some other weapons.

Beckett has been bound over to the Jefferson county grand jury under \$2,500 bond.

## WOMAN HELD FOR ARSON.

(Associated Press Telegram)  
Lorain, O., August 25.—Police have arrested Martha Marshall, wife of Julius Marshall, also being held by police pending an investigation of a mysterious fire in the Marshall home Sunday night. Both pleaded not guilty of arson and are held under \$1,000 bonds. Firemen claim they found gasoline and kerosene sprinkled in a room and closet.

## Atlanta Woman Held For Shooting; Victim An Officer

(Associated Press Telegram)  
Macon, Ga., Aug. 25.—Captain E. J. Sprattling, F. Company Fifth Infantry national guard of Georgia, was shot and killed today in front of his tent at the state mobilization camp near here. Mrs. H. C. Adams of Atlanta was arrested on the statements of several officers and men that she shot the military officer. She declined to make any statement.

## Plague Epidemic Still Decreasing In New York City

(Associated Press Telegram)  
New York, Aug. 25.—The epidemic of infantile paralysis showed another big drop today in the number of new cases and deaths reported and health experts were more confident than ever that the disease was being controlled. During the 24 hours ending at 10:00 a. m., there were only 22 deaths and 94 new cases, the lowest number in a month.

## WILLIAM REACHES PORT.

(Associated Press Telegram)  
New London, Aug. 25.—The German steamer Wilhelm reached here today at Boston at the outbreak of the European war and sailed from Boston yesterday by way of Cape Cod canal, arrived here this morning. A heavy fog held up the steamer during the night. She is expected to tie up here for an indefinite period.

## Harry Lucas, a Former Newark Boy Drowns in Lake Erie; Girl's Efforts to Save Him Were Futile

Corporal Harry Lucas, 26, of the Cleveland Grays, former well known Newark boy, late yesterday afternoon, was drowned while bathing in plain view of many prominent members of Cleveland society enjoying themselves in the rolling breakers of Lake Erie at the East Shore Country club, Cleveland.

The body was recovered early this morning by life guards and will be brought to Newark tonight or Saturday.

Miss Jeanette Shupe, who was bathing with Corporal Lucas, made a valiant but vain effort to save his life. Miss Shupe dived off a raft to his assistance, and managed to get within a few yards of safety, when a big wave broke over the pair and Corporal Lucas was washed from her grasp. He disappeared below the surface. Life savers today were dragging for the body.

Corporal Lucas was a member of Co. F of the Cleveland Grays at Camp Willis. He was granted leave of camp for 48 hours yesterday morning and went to Cleveland to be the guest of the family of A. P. Shupe, 75 Prospect street, East Cleveland. Mr. Shupe is connected with the Cleveland Toilet Supply Co.

A party motored from East Cleveland to the East Shore Country club and Corporal Lucas and Miss Shupe went in bathing together.

There is a sandbar some distance out from the shore. Beyond the sandbar the lake dips suddenly into deep water. Miss Shupe swam out to a raft about 200 feet from shore and called to her companion to follow.

Mr. Lucas became exhausted near the raft. Miss Shupe dived to lend him assistance and was nearly past the danger zone when the young man was torn from her grasp by the breaking of a huge wave.

Harry Lucas was reared in this city and was known to his hundreds of friends as "Monk."

He was for several years a member of the famous Y. M. C. A. basketball team, being one of the stars of this aggregation. He left Newark a few years ago and went to Cleveland to accept a position in a real estate office. Later he became

a member of the famous Cleveland Grays, of the Sixth City.

When the Cleveland troop was sent to Columbus several weeks ago Corporal Lucas paid this city a visit to see his mother, Mrs. Katherine Lucas, 139 North Eleventh street.

Mrs. Lucas and Power Lucas, a brother, employed in the Licking County Bank and Trust company, were both out of the city when word of the tragedy was received. They have been visiting relatives in Clarion, Pa., for the past two weeks. A cousin, Lawrence Lucas, employed at the Newark Trust company, left immediately for Cleveland to aid in recovering the body.

Spending practically all his life here, "Monk" Lucas was a general favorite in a large circle of friends. He was educated in the local schools and was an active member in the Newark Y. M. C. A. while here. He transferred his membership to Cleveland after taking employment there.

Genial, modest, a man in every sense of the word, his death is keenly felt.

He was a clean sportsman, fond of athletics and the out of door pleasures and his friends here, who regarded him as a capable swimmer, are at a loss to know how he became so exhausted as to lose his life.

Relatives here had received no details of the drowning or the search for the body, other than brief messages and the press dispatches received by the Advocate.

While in Newark Lucas was associated with Karl Reinhold in the operation of a store in the Arcade. He also was once employed at the Walk-Over Shoe store.

Harry Lucas was graduated from Newark High school in 1908, and attended Denison university for a year and was compelled to stop because of typhoid fever.

Mrs. Katherine Lucas and son Power are expected back this evening when funeral arrangements will be made. The body has been shipped from Cleveland and will probably arrive this evening.

Mr. Lucas was a member of the First Presbyterian church of this city.

**WEST INDIES LEGISLATURE URGES HOME GOVERNMENT TO RATIFY SALE OF ISLANDS.**

**Resolution Says Delay Is Affecting Enterprises on the Islands—Is Cabled to Copenhagen.**

(Associated Press Telegram)  
St. Thomas, D. W. I., Thursday, August 24.—(Delayed.)—In resolutions adopted today the local legislature urged upon the Danish government the expediting of the negotiations for the sale of the Danish West Indies to the United States.

The transfer of the islands to the United States as speedily as possible to end the uncertainty of the present situation, is "earnestly requested," of the mother country. The resolutions follow:

"As constantly recurring sale negotiations paralyze all enterprises in St. Thomas and great depression with a public deficit and private misery has already been caused by the war and by disappoinment from the Panama canal, the mother country is earnestly requested to hasten the present negotiations and implement not to reject the sale unless the entire nation demands it and be willing to take the consequences afterwards."

The resolutions which were adopted unanimously were cabled to the finance minister of Denmark at Copenhagen.

## ENGLAND

**Bitterly Attacked by Peace Committee in Statement Just Issued**

## SHE LEADS OUR ENEMIES

**Is Assertion Made In Document Which Describes Great Britain As "Our Most Special Enemy"—Germans Claim to Need Belgian and Russian Territory As Bulwark**

(Associated Press Telegram)  
Berlin, Aug. 24, via London, Aug. 25.—A proclamation containing views on the peace conditions which might be imposed by Germany is published today by "The Independent Committee for a German Peace," an organization formed some time ago by those considered to be the extreme war advocates in Germany.

The proclamation asserts, despite the fact that the Germans and their allies are holding three kingdoms in their hands, the entente still talks of the destruction of the German empire and entente statesmen continue to indulge in a flood of abuse and lies about Germany, while themselves violating every principle of international law, forcing neutrals to enter the war against their better judgement and endeavoring to force into submission, through hunger, millions whom their swords could not vanquish.

"Our enemies will not succeed," continues the proclamation. "One thing they have accomplished is to force upon us the realization that England is our special and most dangerous enemy. England causes our enemies to stick together. England leads them. Upon England they depend and will depend more after the war. On the wreckage of empire, England hopes to unfurl the banner of Anglo-Saxon world dominion."

The document asserts that Russian territory from the Baltic to Volhynia must in the future be included in the German sphere to serve as a bulwark against the Russian tendency to annihilate Germany, France's revenge ideas must constantly be kept in mind, so that the west also changes would be necessary.

Belgium in the future, adds the proclamation, either will be a German or an English bulwark, so "real guarantees" here also are needed. The document then cites the expression of Dr. Peter Spahn, leader of the Catholic center party in the reichstag, that "Belgium must lie in German hands militarily, economically and politically."

The proclamation concludes with the assertion:

"England's plans threaten us with political and economical helotry. It aims at our life as a people and a state. It aims at our culture and institutions. Every man must be applied regardless of consequences to force peace upon this enemy. Let it not come true, that, as England says, we will win all the battles, but England will win the war. With Von Hindenburg, let us say it is not only a question of sticking it out but of winning."

## Men of Newark

**W. B. PATTON, ARCHITECT AND GENERAL CONTRACTOR, IS** one of the leading members of Newark's army of builders. Ever since coming to this city in 1904, Mr. Patton has been engaged in planning beautiful structures and then in many cases has been awarded the contract to finish the work by erecting the building.

A graduate of Marietta high, in which town he was born and reared, he went to Cleveland where later he graduated from Case School of Applied Science. Returning to Marietta he became his father's successor in the contracting business.

Wishing to expand, he sought a large field of endeavor and selected Newark. He points with pride to some of his work in the city such as the Methodist church, the new wing of the Newark High School, the Hunter-Baker building, the Old Homestead and made the plans for the new Market house.

Today he was given the contract for the construction of a three-story building for the A. H. Heisey company.

Fraternally he is affiliated with the Newark Elks, Eagles, and a member of the Chamber of Commerce and Builders' Exchange.

## ADDITION TO HEISEY FACTORY CONTRACTED FOR

W. B. Patton, architect and general contractor, South Park Place, late this afternoon was awarded the contract for the construction of a three-story building addition to the A. H. Heisey Glass company.

The work of excavating for the building will be started Monday morning and the building is to be finished by December 1.

The new building will be erected on the north end of the factory site, adjoining the cutting shop. It will be a three-story reinforced concrete structure 50 x 110 feet. Metallic frames and sashes will be used in the windows. The plans were drawn by one of the employees of the company's designing department.

The growth of the A. H. Heisey company has been rapid and with the addition of the new building will be one of the largest plants of its kind in the country.

## The Courts

**Justice Jones' Court.** Ross Van Voorhis was brought in to the justice court of D. M. Jones today charged in an affidavit subscribed to by Elmer J. Jones with abusing a horse. His hearing will take place late this afternoon.

**Divorce Petition.** Nora Nash has filed a petition in probate court asking for a divorce from Herbert Nash. They were married August 3, 1894, and are the parents of two children, aged 21 and 15 years. The plaintiff alleges that defendant has failed to provide for herself and the children for more than three years. For a second cause of action she states that he is confined in the state hospital for the insane at Lima and will be compelled to remain there for the balance of his natural life.

**Notary Public.** Clerk of courts Bert O. Horton has received the commission of Chas. A. Cook of Brownsville, Ohio, as a notary public. It was signed by Governor Frank B. Willis. Mr. Brown has served in the same capacity for some years. He will be sworn into office by Clerk Horton and handed his new commission. The new notary is well known over the county as Capt. C. A. Cook, civil war veteran who achieved fame by the presentation of a solid gold watch and chain, purchased by popular penny subscriptions from all over the United States, for defending the late President James A. Garfield from calumny while lying on his death bed from an assassin's bullet.

## PROFILE ROCK IN NEW HAMPSHIRE LOSING ITS HEAD

(ASSOCIATED PRESS TELEGRAM) Concord, N. H., Aug. 25.—The old man of the mountains, as the profile rock in Franconia notch has been known for years, is losing its head.

Spaulding and his council were engaged today in considering means of repairing the loss. Through Rev. Guy Roberts of Whitefield, the governor's attention was called to the fact that winter storms had moved the stone which forms the forehead of "the great stone face," the name by which the rock was immortalized by Nathaniel Hawthorne. The great stone, which is in danger of toppling over, would carry with it the rock masses forming the nose and chin.

A return of the forehead stone to its original position and the construction of a buckle arrangement to bind it firmly to the head is proposed.

## Johnson Not Identified Here; Died Last Night

Local police are unable to identify Walter Johnson, aged 39, said to be a Newark florist, who died early this morning at the City hospital, in Columbus.

Johnson was arrested with three other men Tuesday by Baltimore and Ohio railroad detectives for train riding. Alcoholism is assigned as the cause of death. Johnson's name does not appear in the directory.

## EFFORT TO CHECK SOARING PRICES OF NEWSPRINT

(ASSOCIATED PRESS TELEGRAM) Washington, Aug. 25.—Senator Hitchcock, Democrat, has prepared an amendment to the revenue bill intended to check the soaring price of newsprint paper. He said today he would bring it up in the senate when certain sections of the bill were reported for debate. Mr. Hitchcock is himself a newspaper publisher.

Paper selling at \$40 a ton and under would not be taxed. When the price passes \$40 a ton a tax of \$1 a ton would prevail until \$45 a ton is reached when the tax would increase to \$3 and mount up gradually until a tax of \$40 a ton would prevail on paper selling for more than \$90.

"My proposed amendment is designed not so much to raise revenue," said Mr. Hitchcock, as it is to make it unprofitable for paper manufacturers to charge exorbitant prices for newsprint paper.

## DEUTSCHLAND PREPARES FOR ANOTHER VOYAGE

(ASSOCIATED PRESS TELEGRAM) Berlin, via wireless to Sayville, Aug. 25.—Preparations for another voyage of the submarine Deutschland to the United States are well under way. Freight is being received for this trip. The amount of cargo now ready is larger than had been expected, the Overseas News Agency says. All the members of the crew have expressed readiness to sign for the next trip.

The new Catholic church of Brownsville Junction, Maine, cost \$6,000 and was built by a parish consisting of only 30 families.

## RECLUSE

**LOST PROPERTY VALUED AT \$5,000,000 THROUGH UN-SCrupulous METHOD.**

Burnstein Girls Adopted by Chicago Men are Called Into Court—Estate Windles Away.

(ASSOCIATED PRESS TELEGRAM) Chicago, Aug. 25.—Edward W. Morrison, the eighty-year-old recluse whose vanished millions are the subject of investigation before Judge Landis in the U. S. district court was declared today to have lost property valued at \$5,000,000 to a coterie of strange characters within the last twenty years.

Francis J. Houlahan, counsel for Morrison's creditors, declared that unscrupulous lawyers, women, and habits of Chicago's underworld, came into the life of the aged man, whose wealth is estimated from \$3,000,000 to \$8,000,000 to obtain his money. He was taken on trips to other cities, attorney Houlahan declared, women were brought to see him, and new characters introduced to keep his fortune dwindling.

Search of the recluse's quaint old two-story home, in which it was thought he had concealed vast sums of money, revealed \$11.73 in cash and a bunch of old papers, cancelled checks and notes.

In one packet almost one hundred "I. O. U.'s" written in various hands, but unsigned, and which totaled something over \$150,000 were found. No trace of deeds, titles and other records of ownership to property reputed to be worth \$6,000,000 was found. Investigation into the affairs of Morrison has shown that James R. Ward, counsel for the aged man, is holding more than \$2,000,000 worth of property conveyed to him by Morrison.

John Sommers, a jeweler disposed of \$200,000 of Morrison's fortune in "entertaining him." Mrs. Kate Miller, formerly keeper of a lace shop, obtained \$70,000 in cash and \$79,000 in bonds during the life of Morrison's wife who died in 1909. They were gifts, Mrs. Miller asserted.

Subpoenas have been issued for the appearance in court of the two Burnstein girls, Margaret and Alice, whom Morrison recently adopted and of whom their reputed father, Joseph Burnstein, a junk dealer, declares Morrison is the real father.

Under the terms of the will left by Morrison's father, James M. Morrison, the entire estate would go to the city of Chicago if the son died childless.

## HUGHES TO VISIT CINCINNATI FOR SPEECH SEPT. 6

## SINGLE G

WILL COMPETE WITH NAPOLEON  
DIRECT IN FREE FOR ALL  
EVENT TODAY.

Splitting of the 2:18 Trot Places Five  
Events on North Randall Grand  
Circuit Cord.

(Associated Press Telegram)  
Cleveland, Aug. 25.—Owing to the  
splitting of the 2:18 trot, five events  
will be raced today at the Grand Cir-  
cuit meeting at North Randall. The 2:06  
trot and free-for-all race are expected  
to furnish some sensational racing.

Only three horses will start in the  
free-for-all race, but that will not  
detract from that event. It is admit-  
tedly a two horse duel between Single  
G. and Napoleon Direct. In the 2:06  
trot, Captain Shady's mare, Joan, will  
most likely go to the post a favorite,  
but Joan will have some task to dis-  
pose of Mirthful, Director Todd, Es-  
peranza and Grand Chinese, and a hot  
battle is expected.

Three, Miss Jeannie Castle, Peter  
Look and Edward E. will be the con-  
testants in the paying division of the  
champion stallion stakes, which is pre-  
dicted to be an open race.

The first division of the 2:18 trot has  
seven starters, while six go in the  
second section.

The champion stallion stake race, the  
feature event yesterday, was won by  
Volga, the fast little mare of the Pas-  
time stable, without having to extend  
himself. Volga, the champion 1932 2-  
year-old, won easily over Expressive  
Lou and Bingen Silk, the only con-  
tenders who gave her competition.

Charley Valentine, one of the success-  
ful drivers of the season, gained dis-  
tinction today by winning two races.  
With Donna Leona, the champion 1932  
2:16 trot, stepping the mare 2:05 1/2 in  
the first heat, the fastest mile recorded  
by any 4-year-old this season.

Valentine also won the early Don to  
victory in the Cuyahoga Stake and  
while Early was a little late in getting  
started, thus losing the heat, the  
Don won the second and third and the  
race.

The first race of the card, the 2:18  
trot, was the only poor race of the  
card, as was evidenced when McEnery  
the favorite, won the last heat in no  
faster time than 2:13 1/2. McEnery  
should have won in straight heats, but  
broke in the first heat, Rayo De Oro  
winning that mile. McEnery won the  
next two heats pulling out.

In his attempt to break the world's  
record to wagon with an amateur  
driver, Directorium 1, driven by  
Devoreaux, fell short of William's  
mark of 1:59 1/2, negotiating the mile in  
2:02 1/2.

NEWARK DEFEATS  
COSHOCK TEAM  
IN GOLF FINAL

The golf team of the Moundbuilders' Country Club played the Coshock club here Thursday, the event being the final game of the Southeastern League. The last game disclosed the fact that scores for the league were a tie, all the teams having won on the home grounds, and lost abroad, making each win one and lose one.

Yesterday's game was won by a score of 37 to 10 1/2. The members of the visiting team were entertained at the Moundbuilders' Club for luncheon and dinner.

OHIO WOMEN IN  
GOLF EVENT FOR  
CHAMPIONSHIP.

(Associated Press Telegram)  
Grand Rapids, Mich., Aug. 25.—With the championship of the women's western golf association as the prize, Mrs. Fred C. Letts, Jr., of Cincinnati and Miss Laurie Kaiser, of Flossmoor, Chicago, tied off in the final round of the tournament on the links of the Kent country club here today.

Finals in the Kent trophy match, the association trophy, the Solace trophy and in the consolation also were on the days program.

Bessie Arnell, a Chicago nurse, recently received a \$500,000 bequest in the will of an aged woman she once nursed.

LARRY CHENEY IS SHOWING HIS OLD CLASS

Larry Cheney, who went to the Brooklyn Dodgers when the Cubs asked waivers on him last season, has been showing his old form this year. Larry ranks well up among the National league pitchers and looks good for a big percentage of victories this season. He won 26 games and lost 10 for the Cubs when he joined them in 1912, but had slowed up last season.

## ROOK LOOKS GOOD FOR NEXT SEASON

Herbert Rook.

Big league scouts have been watching Herbert Rook, pitching for the Fargo team in the Northern league, and it's likely that Herbert will appear in fast company next season. This summer only two teams have made over two runs against him, one getting three and the other five. Recently while Cub, Pirate and Tiger scouts were looking him over he pitched three consecutive shut-outs.

## More Room Needed By Boston Store; Will Increase Space

The Boston Store in South Park place will remodel the main floor of the store, the contract for the work having been given to Contractor John W. Saur and it will start as soon as a clearance sale for the summer stock has been concluded.

The large center staircase will be removed to the court, giving a hundred feet more of selling space on the first floor besides making the entrance and exit to the second floor and annex more accessible. As a special convenience to shoppers who attend market, a special exit has been built and plans are being made to inaugurate a "bargain basement."

The Boston Store which was opened in Newark during the past year, has been very successful and makes the store changes for the better convenience of the many patrons.

## MEETINGS FOR SUFFRAGE ARE WELL ATTENDED

Suffrage meetings which have been held in two towns in the county, Johnstown and Utica have been well attended. On Wednesday evening the meeting was held in Utica and on Thursday in Johnstown. This evening a meeting will be held in Hebron in the auditorium of the public school at 7:15 o'clock.

Meetings are being held throughout the 17th congressional district and Miss Winifred Rauschenbusch of Oberlin, Miss Alice Standish of Cleveland, state organizer for the Ohio Woman Suffrage Association and Miss Alice Goddard of Gambier, chairman of the 17th congressional district are the speakers and have had charge of the meetings.

## Cong. Ashbrook Urges Sandstone For P. O. Building

Washington, August 25.—Representative Ashbrook yesterday recommended to the treasury department that the new federal building at Newark, O., be constructed of Ohio sandstone. He has received about fifty telegrams from Newark asking that this material be used.

ESTABLISHED IN 1820

Entered as Second Class Matter  
March 10, 1882, at the postoffice at

Taxation.

The storm that has broken over ar-  
bitrary tax increases in Franklin and  
other counties has caused Governor  
Willis to take issue with his own tax  
commission. Increases made by the  
County Boards of Revision range  
from 50 to 1000 per cent. Taxpayers  
are not permitted to appear until af-  
ter the increase has been certified  
by the auditor. The sworn reports  
of the assessor, about whose election  
so much has been said, are altogether  
ignored and the boards placed the  
amount of taxes at what they  
thought the taxpayer could pay, this  
being done to keep up a shrinkage  
duplicate.

James Boyle of the state tax com-  
mission insists that this arbitrary in-  
crease is essential and that the tax  
commission order was advised by  
Governor Willis and Attorney Gen-  
eral Turner. Announcement of the  
intention of the state tax commission  
in the matter of arbitrary increase  
with the statement that it was ap-  
proved by the attorney general was  
made months ago. Neither Governor  
Willis nor Attorney General Turner  
denied their connection then. Now  
since the tax commission has gotten  
in bad it appears that both Willis and  
Turner would evade responsibility.

It will be remembered that when  
the Parrett-Whitmore decentraliz-  
er was passed we said that it kept  
the words of promise to the ears and  
broke them to the hopes. Taxpayers  
who last year paid greater taxes and  
who this year face still further ar-  
bitrary increases now know that this  
is true.

Wilson As President.

"Woodrow Wilson as President" is  
the title of a book just published by  
Row, Peterson & Company of Chi-  
cago and New York. The book was  
written by Eugene C. Brooks, profes-  
sor of Education, Trinity College,  
Durham, N. C. In it the addresses,  
messages and notes of President Wil-  
son are woven together into a hu-  
man story that gives the aims and  
purposes of the President during one  
or the most critical periods of Ameri-  
can history and tells with absorbing  
interest of the wonderful achieve-  
ments of the Wilson administration.

During the presidential campaign  
every intelligent American citizen  
should desire the full story of the  
Wilson administration. The charac-  
ter of the President, his leadership,  
not only in the nation but in the en-  
tire civilized world, and his remark-  
able achievements, which constitute  
the platform on which he asks for  
the endorsement of the American  
people, are of vital interest now and  
in Mr. Brooks' book all this is ad-

Did You Know  
That Francis Bret Hartie was born  
at Albany, New York, August 25,  
1839? He went to California as a  
gold digger and from his experi-  
ences in the mining camps acquired  
great skill in portraying border life  
with all its roughness "Luck of  
Roaring Camp" and "Outcasts of  
Poker Flat" were among his early  
books and when in 1870 he wrote  
"The Heathen Chinee" his popularity  
was established. He was editor of  
the Overland Monthly. He returned  
to New York in 1871 and was made  
United States Consul to Crefeld, Ger-  
many, in 1878.

Trend of Campaign  
Caught On Pullman

The smoking room of a railroad  
train furnishes excellent opportuni-  
ties to "feel the public pulse." A  
young business man the other day  
was about to start on a trip from  
New York to St. Louis. His sister  
is intensely interested in politics  
this year—more so, perhaps, than  
her brother.

"Send me a report on the political  
trend," suggested the young man's  
sister, as he stepped aboard the train.

Here is the report, precisely as he  
made it.  
Scene.—Smoking compartment of  
a Pennsylvania Pullman train No.  
27, New York to St. Louis.

Assembled—A glass manufactur-  
er, St. Louis; a banker (junior mem-  
ber of firm), St. Louis; a hotel  
manager, St. Louis; a capitalist, Ct.  
Joseph, Mo.; a railroad man (in-  
dustrial development department),  
and a "Democratic scout" (traveling  
incognito.)

Conversation.—Weather, good;  
meals on diner, very good; cigars,  
dissension (one preferred a pipe,  
two preferred cigarettes, the rest  
preferred cigars of various brands);  
crops, good and yet uncertain;  
money, good.

Railroad strike—Serious; Federal  
intervention necessary; Wilson's  
hand to guide.

Politics.—In last analysis, strong  
for Wilson; bars off to the Presi-  
dent; some points on which to con-  
demn him, but these outweighed by  
his good points; all agreed that he  
has "kept us out of war" and all  
applauded Democratic bigness in re-  
fraining from mud-slinging; four of  
the six said they were for Hughes  
at the time of his nomination, but  
he "fell down" in his speech of ac-  
ceptance. Quotation from the glass  
manufacturer: "Why, I have a  
prospective son-in-law in his third  
year at college, and if he couldn't  
have written a more constructive  
speech than that, I'd take my girl  
crushing around the world to make  
her forget him."

Suffrage.—Hughes condemned for  
his inconsistent attitude; Wilson  
approved for his stand and for do-  
ing what he could, i. e., voting  
locally.

Policy.—Hughes condemned for  
inconsistent statements; first one  
definite plan and then another which  
would directly conflict. Wilson not  
given to any definite pledged policy,  
but meeting situations as necessity  
requires.

Experience.—Hughes, none as  
legislator; Wilson, strong by virtue  
of battling with Congress.

## MANY WOMEN TESTIFY.

Columbus, Ohio.—"I was so well pleased with the use of Dr. Pierce's Favorite Prescription that I am glad to endorse it. I was run-down and had female trouble and I doctored with several medicines with no benefit. The 'Favorite Prescription' put me on the road to health. I used seven bottles and this medicine was the means of my recovery. I have been well since, with no return of the trouble. I have recommended this to others who have come back to thank me on account of the benefits they received."—Mrs. MARY J. DILLINGHAM, 136 Norwick St., Columbus, Ohio.

Lancaster, Ohio.—"I have had a test of 'Favorite Prescription' and it proved a very satisfactory medicine. I took it in the spring. I was run-down, tired and worn-out. I used the contents of two bottles and it did all I could expect and more. I felt just fine after I had used it. You may say it is a good tonic and strengthening medicine for women."—Mrs. J. W. KEAN, 363 E. Main St., Lancaster, Ohio.

The mighty restorative power of Doctor Pierce's Favorite Prescription speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

What Doctor Pierce's Favorite Prescription has done for thousands it will do for you. Get it this very day from any medicine dealer, in either liquid or tablet form.

Doctor Pierce's Pellets are unequaled as a Liver Pill. *Smallest, easiest to take. One tiny, sugar-coated Pellet does the work of a large pill.* Cures Sick Headache, Bilious Headache, Bilelessness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

**Husk—Boyer.**  
The marriage of Miss Carrie S. Boyer and Mr. Earl V. Husk was solemnized on Thursday evening at 7:30 o'clock at the parsonage of the United Brethren church, by Rev. A. H. Cox, pastor. Mr. and Mrs. Husk will reside in Newark, the bridegroom being an employee of the Newark Steam Laundry.

Miss Valeria Pickering was the honor guest at a charming dinner party given Thursday evening by Miss Mary Larson at her home in Hudson avenue. The dinner appointments were in pink, the table being centered with a white and pink basket filled with pink roses buds, and caught with smilax and a butterfly bow of pink mulline. The place cards were dainty miniature brides with frocks of pink and a delicious four course dinner was served the following guests:

Miss Valeria Pickering, Mesdames Lloyd G. Millson, A. E. Best, Clyde Marshall of Lancaster, Maurice Kent, H. C. Gibson, Warren Jackson, H. L. Reid, Harry MacKenzie, W. H. Miles, Lawrence Flohr, and Oliver Heck of Carnegie, Pa.; Misses Florence Hart, Grace Gorbey, Myrtle Gorbey, Emma Lacey, Marge Lisey, Besse Tafel Nancy Martin, Clara McDonald, and Alta Billman.

J. U. Barbee of Woods avenue, and daughter, Mrs. J. B. Evans, of Thirteenth street, have returned from a three weeks' trip among friends and relatives in the east. Going from Newark to Grafton, where they remained a few days, they were met by Mr. Barbee's daughter, Mrs. E. E. Newlin and husband of Point Marion, Pa., who took them to Pt. Marion in their car. On the return trip they were accompanied as far as Wheeling by Mr. and Mrs. Newlin in their car, having a delightful trip over the mountains of Pennsylvania and West Virginia.

The members of the Buckeye Lake Yacht club will hold the last dance and reception of the season at the club house on the lake Saturday evening, Sept. 2. A delightful dance program is promised and the members are urged to bring their friends, that there may be a proper observance of the closing of a successful season.

Mr. John Mohlenpah was host last evening to a number of friends at his home in South Third street, the occasion being his natal anniversary. An elaborately decorated cake with lighted candles adorned the center of the table. Several of the guests aver that there were at least forty-nine of them, but Mr. Mohlenpah states that if his wife used more than twenty-nine she made a mistake. A good time was enjoyed with games and music after which an luncheon was served. Speeches of felicitation were made by a number of the guests, the host responding in a pleasing manner.

**Crist-Coyle.**  
The marriage of Mr. Roland A. Crist and Miss Kathryn Elizabeth Coyle took place Wednesday evening at the parsonage of the First M. E. church, Dr. L. C. Sparks reading the ring ceremony. Following the ceremony a reception was held at the home of the groom. Mr. Crist is a son of Mr. and Mrs. E. C. Crist of Park avenue, and is employed at the American Bottle Co. Mrs. Crist is a daughter of Mrs. Blanche Coyle of 50 Bates street, is a graduate of the Newark high school and is held in very high esteem by a large circle of friends. After a short wedding journey they will be at home to their friends at 452 Park avenue.

A pretty announcement party was given by Miss Mary Keeley at her home in South Fifth street, Thursday evening when she announced her engagement to Mr. Edward Duffy. The announcement was made at a dinner of attractive appointments which was served at six o'clock, and the color tone of the decorations was pink and white.

A French basket laden with pink roses and feathery ferns and caught with chiffon centered the table and to each place was festooned smilax, intertwined with roses. The ends of the smilax were caught with individual candle holders, containing pink candles. The announcement was made at the end of the first course when dainty pink hearts tied with white ribbon were found beneath the plates bearing the names of Miss Mary Keeley and Mr. Edward Duffy, with the wedding date, September 12. The marriage will be solemnized in St. Francis de Sales church by the pastor, Rev. Father B. M. O'Boyle.

The evening following dinner was devoted to eucure and the souvenirs were awarded to Miss Mina Hohl and Miss Nellie Gorman.

The following were the guests: Mrs. Wayne Day, Mrs. Albert Gundlach, Mrs. Justin Keeley, Misses Lucille Callahan, Christine Young, Helen Ginter, Mary Kureth, Mina Hohl, Loretta Dolan, Mary Ganey and Nellie Gorman.

Miss Keeley is the daughter of Mr. and Mrs. Jerry D. Keeley of 17 South Fifth street, and Mr. Duffy is the son of Mrs. William Duffy of 27 Webb street.

## Milady's Boudoir

**Foot-ills of Women.**  
Women have more foot ills than man, and it is believed that the chief reason is, that women's shoes are more injurious to the feet, than the common flat shoe men wear.

There is no excuse for anyone wearing shoes that do not fit, for an attempt to enhance the beauty of the foot by wearing a shoe that is too small reveals it in an unnatural and ungainly walk, besides creating ills of the feet that are often difficult to overcome.

The shoe should fit snug enough to hold the foot in shape. It too loose it allows the bones to spread, causing a misshapen foot and a tired feeling generally.

While patent or varnished leather fashion many of our smartest shoes, it is not advisable to wear them in the hot weather if the feet are tender.

There are a number of reliable powders and lotions that may be secured to relieve burning and tender feet, but in case they are not obtainable, one may gain temporary relief by soaking the feet night and morning in hot water for from five to ten minutes. An ounce of pure cider vinegar added to each gallon of water used will add to the efficiency in most cases.

Cold clammy feet are usually due to improper circulation. This may be only local and due to too small a shoe or too tightly laced shoes.

## Every Day Etiquette

I was at a dance last night, and Miss Roberts refused to dance with me saying that she was too tired. I afterwards heard that she said I should have sat the dance out with her. I had the dance with Ruth Sheppard and don't see why I should have sat it out with her," said Robert.

"You did quite the proper thing," replied his uncle. "There is no reason why you should have sat with her, as she didn't care to dance when she was invited to do so."

## EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water-drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

## Railroads

**Jewett Excursion.**  
Local officials of the Baltimore & Ohio railroad company, today were making preparations for handling the Jewett Car company's big annual excursion tomorrow morning, to Cedar Point. ### CREATION

WAS DISCUSSED AT ADVENTIST CONFERENCE BY J. H. BEHRENS, CINCINNATI.

Big Tent Was Filled and Many Automobiles Were Parked Around the Outside.

Another tremendous crowd, encircled by a great belt of automobiles, was gathered last evening at the Seventh-day Adventist camp at the Mountbuilders Park to hear Elder J. H. Behrens, of Cincinnati, give his famous stereoscopic lecture on "Creation and Astronomy."

As a revelation of the vastness of the universe and of the number and the size of the stars and suns that swing in space, the lecture was amazing and wonderful. Elder Behrens with the aid of many beautiful and very costly slides took his great throng of most attentive hearers through interstellar space. He confirmed the story of creation as recorded in Genesis, and revealed in the most convincing manner the making of the universe as the work of the Christ of God. The Elder linked redemption with creation in the person of the Son of God, "who is both Creator and Redeemer," and showed that the revelation of His great power to create and uphold the universe was given to men that they might have confidence to believe that Jesus Christ could redeem and uphold them. Among many of the good things he said:

"The Bible knows nothing of the modern revolutionary ideas, but confirms the story of creation as recorded in Genesis, and again, and again in the plainest possible terms states that Jesus Christ is the author of creation and that by the power of His word the world was upheld. This fact is positive proof as to the divinity and pre-existence of Jesus Christ."

"In order that man might ever know that truth regarding Jesus Christ in his relation to the universe as both creator and redeemer, God gave the Sabbath, and had this institution been observed as the Lord intended it should be, there would not be the speculative and infidel theories regarding the divinity of Christ and the cause of creation."

"The Sabbath," said the speaker, "is preserved in the Bible which definitely states that it is the seventh day of the week, and not the first. This was first illustrated by a chart of the week, published by the late Dr. William Meade Jones, of London, England, in which the author shows one hundred and sixty nations of the world, having a knowledge of the week as known to us, Sunday being the first day, and Saturday the seventh."

At the meeting of the Ohio Conference Session yesterday the report of the Nominating Committee was received. A number of changes in the official and departmental responsibilities were submitted, but the president of the Conference, E. K. Slade, of Mount Vernon, Ohio, was renominated.

The report is as follows: President, E. K. Slade; Conference Secretary and Treasurer, H. D. Holton, Mt. Vernon, Ohio. Executive Committee: E. K. Slade, Mt. Vernon; W. W. Miller, Springfield; N. S. Ashton, Mt. Vernon; R. S. Lindsey, Cleveland; A. R. Bell, Toledo; R. R. Hilborn, Akron; G. C. Quillin, Killbuck.

For the various departments the following were nominated: Conference Tract Society Secretary and Treasurer, J. I. Cassell, Mt. Vernon; Field Missionary Secretary, V. O. Patches, Mt. Vernon; Sabbath-school, Educational, and Young People's Department, Bessie E. Acton, Mt. Vernon; Medical Missionary Secretary, Dr. R. R. Hilborn, Akron; Religious Liberty Secretary, A. R. Bell, Toledo; Home Missionary, F. H. Henderson, Akron.

For the Ohio Conference Association of the Seventh-day Adventist Church, the following were nominated: E. K. Slade, W. W. Miller, N. S. Ashton, R. S. Lindsey, A. R. Bell, R. R. Hilborn, G. C. Quillin.

The report was adopted, and without any changes whatever each nomination was approved by the delegates assembled, and the nominee elected.

The following resolution brought up a most enthusiastic discussion: Whereas, The Harvest Ingathering for Missions has proved a great blessing, both in acquainting the world with the great movement, and in raising funds with which to extend the work, therefore,

Resolved, That we undertake to raise an average of five dollars a member during 1916, and that we use the pledge cards prepared for this special campaign.

their weekly periodicals, that is most beautifully illustrated and contains interesting items of their doings all over the world. About a half million copies of this magazine will be used this fall. In hearty approval of the plan, all the delegates and every visiting church member at the camp arose to their feet. The opportunity being given for all in the meeting to vote upon it.

Professor C. S. Longacre, of Washington, D. C., the National Secretary of the Religious Association, came into the camp yesterday afternoon. Seventh-day Adventists are the only denomination in the world that have a Religious Liberty Department as a part of their organized work, and they publish a magazine especially devoted to the principles of religious liberty, and uncompromisingly opposed to any movement tending toward a union of church and state. Professor Longacre is the editor of this magazine, entitled "Liberty."

In part he said: "There are more than a dozen religious organizations in this country, whose object is to unite religion and the state. These organizations introduce bills into Congress to establish the Christian religion with all its laws and usages as a part of the fundamental law of the land. There are two bills now pending in congress which aim to do this very thing. These organizations also introduce Sunday bills to compel everybody to observe Sunday under the threats of fines and imprisonment. So far Congress has refused to enact Sunday laws. However the state legislatures in some states have enacted drastic Sunday laws. In these states Seventh-day Adventists are being persecuted because they do not religiously observe Sunday in harmony with the Puritan idea of New England. Many of them have been cast into prison, and the chain gang. Such a condition of affairs would be impossible if the government lived up to the constitutional guarantees of civil and religious liberty as set forth in the Constitution. A fair—recognize a distinction between laws and religious laws has been the cause of all the persecutions in the past. A state religion is well named. It is not God's religion. Everybody ought to observe the Sabbath, but they ought not to be compelled by the power of the civil magistrate. It is a matter of conscience, between the individual and his God, with which the state has right can have nothing to do."

This evening at the setting of the sun, the Adventists out at the camp will begin the observance of the Sabbath. As the name indicates, they are observers of the seventh day. They not only claim and hold the Sabbath as the memorial of God's created works, but also regard the Sabbath as the sign and seal of His sanctifying power.

Seventh-day Adventists teach very plainly that salvation is by grace through faith, that righteousness is the gift of God, not obtained in any other way, but that faith that while it is the gift of God and can be obtained only by faith, it is retained only by obedience. The great mass of believers in this body are men and women who have been brought by strong conviction to determine, notwithstanding all opposition, to obey God and keep all His commandments, the Sabbath included. This evening at the 7:30 hour, Elder H. H. Votaw, a returned missionary from Burma, will speak to the large assembly on "The Fate of the Ungodly—will it be a never-ending hell-fire?"

The World War a Year Ago Today—Aug. 25.

Sixty-two allied airships flew 100 miles in German territory dropping bombs upon a big munition factory and at several railway junctions in Rhensish Prussia. All along the French front the aeroplanes went aloft in squadrons, raiding and dropping bombs by the hundreds at almost every important German advanced base and railway junction within flight distance.

The fortress of Brest Litovsk fell before the assaults of German armies. The Russians also withdrew from Bialystok; the great German offensive movement in Poland thus advanced more than 100 miles in the three weeks after Warsaw fell.

# GET RID OF WRINKLES

Ust Will Drive Them Away. Brings Back Smooth, Clear, Youthful Complexion and Color

"The bottle of Ust has completely cleared my face of the horrible wrinkles that were such an eyesore to my five daughters, and even my grandchildren have their say about Grandma's wrinkles. It is a Godsend to wrinkle suffering humanity."

Ust, the wonderful pure nut-oil skin food (in opal bottles, not a face cream) will do as much for you, ladies, whether you are grandmothers, middle-aged or young mothers, or younger girls—whether the wrinkles have been brought to your face by age, work, worry or exposure to wind and sun.

Ust feeds the skin back to health. It is the one thing that will bring back the youthful appearance so dear to you and admired by everybody.

Rubbed into the skin before retiring, it does its magical work while you sleep. No other treatment is necessary. Get a bottle today at any first-class drug store for 50 cents. It is guaranteed to contain nothing that will cause hair growth.

The most painful cases of sunburn are relieved instantly by Ust.

was mid-winter and the company was camped up in the Santa Clara Mountains. While the streams were not frozen over, they found their sources among the snow-capped mountains and they were filled with snow water.

"Let's make it a good fight, Joe," Hart said to Joe Goodboy, the Indian actor, who was cast to struggle with him, when the big day came. "Never mind the cold." Then he gave the signal for the camera and plunged into the icy river. As he started to swim, Joe followed in a canoe and, as planned, overtook the actor.

Hart dived, upset the canoe and the two men clinched in what was apparently a death struggle in the water.

**The Social Follies.**

Manager Fenberg is certainly pleased with his booking of "The Social Follies," a high class musical show that comes to the Auditorium for one performance on Monday, Aug. 28th. Columbus newspapers speak in highest terms for the company, music, book and scenery. It played there this week. This show is a spoke of the American Wheel and plays one week of one night and Newark has been selected for every Monday. "The Social Follies" is considered one of the really good shows of the wheel and has been selected for that reason for the opening here. In offering this attraction, Mgr. Fenberg gives his personal guarantee that the show and everything with it will be clean.

Bathing Girls in "Social Follies," Auditorium, Monday, August 28th.

The cast is an all star one and it would be impossible to feature any one member of it, while the majority are well known to the theatre goers of this city.

**The Fall of a Nation.**

That the details in the battle scenes of "The Fall of a Nation," Thomas Dixon's great film spectacle which will be seen here September 6th, are absolutely correct and in accordance with the latest methods of war is proved by recent As-

sociated Press dispatches from the Somme front. The correspondent tells of an inspection trip to the German front: "A dramatic climax to this trip was a night battle which was viewed from the so-called 'fighting station,' commanded by the captain who acted as guide. From this post the whole front was visible for a distance of twelve to fourteen miles."

This is exactly the viewpoint from which the great battle scenes in "The Fall of a Nation" were filmed, and

one of the most startling bits is when the observation tower itself is apparently shelled, cutting away great limbs from the trees and killing the lookout at his post.

**Alhambra Tonight and Tomorrow.**

Pauline Frederick upsets tradition. Stars as devoted wife in Famous Players adaptation of Clyde Fitch's drama, "The Woman in the Case," Clyde Fitch's celebrated drama, "The Woman in the Case," has been adopted for the screen by the Famous

Players Film Company with the superb Pauline Frederick in the stellar role. It is the Paramount attraction at the Alhambra tonight and tomorrow. Instead of playing the role of Claire Foster, in which Blanche Walsh triumphed on the stage, Miss Frederick elected to appear as Margaret Hughes, the self-sacrificing wife who fights against the woman of the world to save her husband's reputation.

Jesse L. Lasky presents Charlotte Walker in "Out of Darkness," an

original photoplay by Hector Tuthill, at the Alhambra Sunday.

**Mazda.**

Unknown to her married son of a woman of whose murder she is accused. Though but a short time after the honeymoon he casts her out of his house. How she unearths the actual murderer, the real "man behind the curtain," trails him to his lair and brings about a reversal of the play of forces, makes for high-tensioned dramatic action, full of suspense and thrills. Replete with mystery and attention-holding interest. "The Man Behind the Curtain" is fashioned out of materials that make the photoplay public demand pictures like these. Chic, dainty, dimple-cheeked Lillian Walker plays the principal role, at the Mazda tonight and Saturday.

The only sunshine that finds its way to the dingy depths of a shoe-shining basement is five feet of cheerfulness—"The Sunshine Girl." Her heart torn by the poverty of a sick neighbor, she steals a loaf of bread and is taken to the children's court. A rising young judge passes judgment on her "heavy" offence, but he not only pardons but develops a deep interest in her. He takes her to his mother's home in the country and eventually the little orphan is adopted. At Mazda Sunday and Monday.

## Glass of Water Before You Eat Any Breakfast

Wash poison from system each morning and feel fresh as a daisy.

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house your soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with puffy or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Advertisement.

### "UNITED" EMPLOYEES ENJOY EXCURSION ON SEPTEMBER 3.

Parkersburg, W. Va., Aug. 25.—The annual Labor Day outing of the employees of the United Woollen Mills company will be held this year at Pittsburgh. A special train bearing over 300 employees of the concern will leave here Sept. 3. A four hour stop will be made at Wheeling and lunch will be enjoyed at Wheeling Park. The special will reach Pittsburgh at 5:30 p. m. and the entire party will stop at the Monongahela House.

Sunday evening the annual banquet will be held at which time President W. A. Hersch will present diamond rings to twenty employees who have rounded out five years of service. This will make a total of 107 employees who have received diamonds. Monday the entire party will participate in the big Pittsburgh Labor Day parade. The afternoon will be spent at Schenley Park, the Carnegie Museum and Phipps' Conservatory.

**Another Hart Picture.**

For today and tomorrow Mgr. Fenberg will offer to his picture friends one of the strongest programs so far seen at his theatre. It will be that clever actor, Wm. S. Hart, the "Triangle" star, in the new picture "The Primal Lust." In speaking of this picture, Mr. Hart, said:

"Strikes me it's asking a 'good deal,' as he glanced over the script. This C. Gardner Sullivan sits up nights thinking of hard things for me to do, and now Hawkins has written into this piece a scene which is the supreme limit. I'll go through with it, though if I have to break the ice on the stream."

Thus Hart reviewed the prospect of a battle with an Indian in a swiftly-running mountain stream, it

# Pioneer Residents Aid in Making Homer Centennial Celebration a Big Success

(By Staff Correspondent.)  
Homer, O., Aug. 25.—This Burlington township village today resumed the even tenor of its way, much in contrast to the busy activity yesterday. Not a resident today talks of anything except the glorious success of Thursday's centennial celebration.

Old friendships were renewed, new ones formed and in every heart was uppermost, the feeling that every one who participated was a better man and a better woman. There was not one dissonant note to mar the effect of a perfect harmony of good fellowship.

To Miss Hattie Burner, a daughter of one of Homer's pioneer couples, is generally accredited the honor of starting the celebration upon its way, and yesterday as she sat beside her aged mother, her heart was filled with pardonable pride as she gazed upon the gay and happy throngs and received the congratulations of hundreds who knew of her part in the affair.

Some month's ago Miss Burner in looking over some old records discovered that Homer was really 100 years old in August of 1916, and she immediately took the matter up with the Federated Homer Brotherhood, and a centennial celebration was suggested.

A committee was appointed consisting of Rev. E. L. Wehrenberg of the Presbyterian church, Charles Snare and A. H. Wright was appointed, and the project was advertised through the churches to the end that people became interested and invited their relatives and friends to "come home," August 24, the day decided upon for the event.

Other committees were appointed on program, music, finance and parade and every effort was put forward for the success of the undertaking.

Meetings were held every week and plans were perfected. Yesterday's result was the reward of those who had worked so hard to make the "Centennial Day" the greatest in the village's history.

Beginning early in the morning the throngs began to arrive, many coming up from Newark and down from Mt. Vernon to Utica by train, and thence to Homer, by automobile or bus. By noon the town was literally not figuratively, filled with visitors. But the vast majority came in automobiles, the main street being lined on both sides with this style vehicles from one end of the corporation to the other.

Business was entirely suspended, and every lawn was freely given to parties who wished to sit and eat their lunch at the noon hour. Hundreds brought baskets and enjoyed their contents in true picnic style, while dinner was served at several long tables in an annex to the main tent on the school grounds to those who formed no family groups.

The parade at 1:30 o'clock in the afternoon was most creditable effort in decoration and originality of design, one being a type of prairie schooner of a century ago, in which rode a number of little girls.

Hon. John F. Kramer of Mansfield, was the morning's orator. Judge Lewis B. Houck of Mt. Vernon that of the afternoon, while J. Henry Miller, of Newark, spoke in the evening. These men all drew lessons from the event and their addresses were carefully listened to by audiences which upon each occasion packed the tent.

One of the features of the literary part of the program was a historical sketch of the famous old town prepared by Miss Jessie Smythe, a cousin of Attorney B. G. Smythe of Newark and Judge of Nevada. Formerly Methodist pastor here. This was so much out of the ordinary historical review read upon occasion of this kind that it is here-with printed in full:

The dawn of the last century saw the country all about us covered with forests, part of the hunting grounds of the Shawnee, Wyandot and Delaware Indians. They had temporary encampments within it and one village, situated on the east bank of the river, was called "Indian Path," crossed the township from east to west, leading to the "town" south of Johnston. Another trail that could be easily traced in places ran to the southeast and was said by old hunters to lead to Flint Ridge, where the Indians got flint for their arrow heads.

These Indians had no traditions of their own, but were called by the Moundbuilders, and could tell nothing about the mounds. They had always seen them and regarded them as curiosities or as the relics of an extinct race.

The soil in the vicinity of Homer seems to have been favorable for the work of the Moundbuilders. Within a few miles of Homer there are or have been seven mounds, besides other earthworks. Examination of the mound district has revealed a circular building of stone, with a large "niggerhead" as a keystone. When opened, nothing was found inside, and others have shown nothing remarkable.

South and followed the valley of the North Fork of the river, with the South Fork. To return to the Ohio they descended the Licking and Westinghouse to Marietta.

During the next ten years many settlements were made in the making homes in the Licking valley. When the first pioneers entered our township in 1806, there were six families in the township and no one nearer than Mt. Vernon, in Knox county.

There were ten men in the first company, among whom was James Dunlap, who was the only one who remained in the township. He was the only one who remained in the township. He was the only one who remained in the township.

Others of this first company, whose homesteads cannot be located, were Cornelius Vananda, John Johnson, Jonathan Beatty and Hugh McKindley. In 1808 came a second company. Among them were Jesse and John Egan, and James Dickey, who also settled on the Indian path; the first at the Thomas Bacon place and the second at Tom Edman.

Stephen located not far from Utica; James Buchanan made a home on the place now owned by Charles Butler. John Chonner's original home cannot be located. He once lived on the site of the M. E. church, at other times at the Jonathan Bailey place, and later at the O'Connor place and at other places on that road.

The party that came in 1809 or 1810 cannot be located, except the Allen McKindley lived on the site of the old house on Charles Channell's farm and Jacob Moore settled at that time on Newell Larimore farm, and a family of McKindleys near the Stephen Edman place.

The next year came Colonel Walt Wright, Samuel Egan, William Simmons, Thomas Bare and Ezra Mead. Colonel Walt Wright's home was where Samuel Shaffer's house is. Samuel Egan settled on what is called the old Edman farm. He set aside a burying plot on his farm and was buried there 40 years later. Walt Simmons settled on the place now owned by J. S. Edman and Thomas Bare on the old Cummins farm now owned by Mrs. James Dunlap.

James Houck came about 1811. His original home cannot be located. He, like John Chonner, seems to have bought and sold many times. His son, Jacob Houck, was born here in 1812. Mr. Same Scott must have come in 1810 or 1811, and Daniel Smith in 1814, as also Mr. Cat's father, Philip Cat. John Peters, John Phillips and John Bash came some time before 1820, and John Hilbrant settled on the Lock road about the same time.

The Granville road had been opened in 1810. It followed the section line through the site of Hanover, passing about where the blacksmith shop now stands. Because of the hills and creek it was later established where it is now. In 1816 that part of the village east of the creek was laid out by John Chonner. It was called Burlington, after the native town of Col. Wright.

The first building in Homer is said to have been on the site of Yoakam's store. Mr. Cat says it was a log house and that his father, Daniel Cat, lived in it. It was a blacksmith shop now, and a large double log house that stood there many years. Other log houses are remembered, but their sites are now lost.

In 1823, James Houck, who owned the land lying west of the village, laid out an addition covering all the village west of Coleman's alley, and built several houses. At the time of the Burlington tornado, his house was destroyed by the tornado. His house was destroyed by the tornado. His house was destroyed by the tornado.

The tornado known as the Burlington storm occurred on May 18, 1823. It came in the afternoon, originating in Delaware county. It passed along the surface for several miles and blew lifted above the forest trees. When it descended it was with increased violence. As it passed through Bennington and Burlington it was a very black and sometimes hoisted a little above the surface. The movement was very rapid and lasted only a little while—perhaps two minutes. Those who saw it said the fragments of trees, such as shingles, pieces of lumber, and lock of horse birds. Many incidents are told of the power and fury of the storm.

Colonel Wright's log house, son tried to hold the door shut and was blown across the room with such violence that he was hurled into the air. Mr. Vance, seeing the storm approaching, left the house, going to a young orchard. He told them to lie down and pray the young girl, he himself taking the baby girl. The house was destroyed and a flying timber struck one boy, killing him instantly. Another son was blown against the snag of a tree and wounded that he died, and Mrs. Vance suffered a broken hip. Another son had taken shelter behind a fallen tree, which was lifted and dropped on the other side, leaving him unhurt.

Mr. Andre Dickey was a boy of 12 at the time. He was blown against a tree and clung to it, saving his life. The tree is said to be still standing. Mr. Clemon, who lived in the air lock, was blown off and took refuge behind a tree. The top of the tree was wrung off over his head and the water was washed from the creek, but he clung to the tree stump, which remained for several years. The upper story of Mr. Clemon's house, which was a brick house, was taken off. Later it was roofed as at present and the front was built.

Mrs. Esther Yoakam was a baby in the cradle at the time and after the storm was found still in the cradle, unhurt, with a table set over it.

Orchards and trees were uprooted. It is stated that the lower jaw would go over the face of the largest man present, with room for the two hands between it. It was thought to be the skeleton of a prehistoric chief.

History is silent regarding the early exploration of our township. The only recorded expedition through our community was that of Captain Samuel Brady, a noted scout and Indian fighter, with a party under his command. They were sent out about 1792 or 1793 to "ascertain the condition of the more or less hostile Indians of the Muskingum and tripartite to the north and west of their settlements toward the border settlers and to chastise such small hunting and marauding bands as might be found in the region." The expedition crossed the Ohio at Wheeling, directing its course to the forks of the Muskingum, from there following the Walonding river to the Kanawha, and then to the headwaters of the Licking. Thence they turned

not, fell to Dr. Cooley and Homer was enriched by his services for about 40 years. Whether the Rosecrans came here or if they did, is not known. There were two families. One man was known as Captain Rosecrans and the other was Crandall Rosecrans, who was the father of Bishop Rosecrans of the Catholic church and of General Rosecrans, who was commander of the Union forces at Chickamauga. As boys they were studious and are remembered as reading by the firelight. Sylvester was interested from youth in religious study and early decided to be a minister. While still a boy he dared to argue with men concerning his faith. He chose a Catholic school, entered the priesthood and became a priest. He is said to have been so charitable that when he died at the age of 81 he possessed only two silver half dollars. The father, Crandall Rosecrans, once kept a tavern at the Hartsock corner. He also built the house occupied by Hattie Burner and later lived at the Mark Mathews house. Captain Rosecrans lived at Jay Vance's place. He and his sons made a clearing for J. N. Smythe in the winter of 1807. While Mr. Smythe went back to New York for his family.

Jaum Channell came about 1820, also Harvey Scribner and the Quick family. About 1823 Jonas Williams, brother and Joseph Stinson came, and the next year Jonathan Wright and Joseph Patton. William Daly, Isaac Mathews, Edson Williams, Jonathan and Mary Yoakam and Thomas Larimore all came after 1840.

In the old days there were several physicians besides Dr. Cooley who practiced in Homer. Among them were Dr. Wheaton, who was here in 1840, Dr. Dillard, the two Dr. Wills, Dr. Briggs, Dr. Withers, Dr. Newland, Dr. O'Connor and Dr. Ayres.

To the period between 1840 and 1860 belongs the story of the Clains, who have made the village of Homer famous. The father, who was called Buck Clain, was a lawyer in a small way. He was considered a rather unprincipled man, whose dislike was to be avoided. The mother was of German descent, very broken in speech. She was a very religious woman, fully enjoyed a revival meeting. She never allowed the children to quarrel—at least they must make up before the mother saw them. She was a very strict policy herself, if she had trouble with her neighbors, she went in the late afternoon to her own room and prayed for them in an impassioned voice. At one time she thought her children were not fairly treated at Sunday school. For two Sundays she kept them home. The third Sunday she went, followed by her three little girls, after Sunday school began. Into the church and up the aisle she went until she faced the superintendent, Salmon Wheeler, in the stand. Then she commenced to talk rapidly in her broken Dutch dialect. For some time nothing happened, then Mr. Wheeler arose and without a word motioned her back. She backed down the aisle, talking all the time, with Mr. Wheeler silently following her along, until she went out the door, which he closed after her.

She loved high sounding names and called her children Queen Victoria, Ulica Vanitita, Tennessee Celeste, Malden and Hebron. Her daughters had a remarkable influence over the patients. After a rather spectacular career in New York City they went to England. In time "Vic Clain" became Lady Martin and Tennessee, who is Lady Cook, is now a rather famous Suffragette.

The date and place of the early schools is lost. No doubt they were held in the log cabins by whoever was capable of teaching. Mrs. Georgiana Williams thinks she remembers when the brick school house was built about 1827. It stood on the southeast corner of the present school yard. About this time we hear of several places where "infant schools" were held. One was the present house on the Young farm for the little ones who could not cross the creek. The first church in the community was organized in May 1828. The building stood on the North side of the school lot and was occupied about 15 years when it was burned. The new church was later moved to Back Street, and made a shop by John Moore. The congregation consisted of the following: Presbyterians united and formed a New School Presbyterian Church, and built on the present site. In the new church the pulpit was in front of the altar, and the door on each side, so that those coming in faced the congregation. In the gallery behind the pulpit was the altar, with an orchard in front of it and a leader with a tuning fork. The Baptist church was organized in May 1829 with members from both churches. They met in the home of one of their members for three years but it is recorded they met in November 1832 when they solved to raise funds to build a meeting house in Homer. It is recalled that in 1845 "it was a strong church and had a good school." The church was burned in 1845. The Methodists held their early meetings in the homes of the people and later in log school houses. However, they met on the site of the present church, which was given to them by Mr. Houck.

A noteworthy character in the early days of this church was a man known as "Uncle Jimmy" Wheeler. He was a minister and is still remembered as "one of the best men that ever lived in Homer." For many years he was a missionary among the Wyandotte Indians. He is described as a tall man who was instantly recognized by the white people but he was not known to the people of the small business of Homer died out until it had only its stores and a blacksmith shop.

When the village slept until 1900, when it woke with the new century to find itself famous: "There is Gas at Homer."

Centennial Notes.  
The oldest woman present at the celebration, occupying a seat of honor before the speakers' stand, was Mrs. Elizabeth Burner, who came to Homer, a bride in 1845, and has lived in the village ever since. Mrs. Burner was 93 years old the 21st of last March.

Another prominent industry was in the woolen mills. There were two of them here that did a thriving business. At one time there were three blacksmith shops and various other mechanical shops, such as wagon makers, coopers, cabinet makers, tanners, millers and silversmiths. Mr. Houck built a sawmill on the Granville road and Mr. Clain also had a saw mill as well as a grist mill. Bryant Thornhill built the first grist mill afterward known as the Stamen mill.

When Mr. Burner came here in 1845 there were three hotels. Same Scott had built a hotel on the North side of the corner in Homer. It was a stage station where they stopped for dinner and changed horses. On the Hartsock corner was Nimrod's hotel. His hotel was not so public but it was all good. On the hill at the Hunter place, Smith Scribner kept the "Temperance Tavern." At this time the stage ran daily from Newark by way of Chatham. In the earliest days the mail was carried on horseback weekly to Newark and Granville by way of Utica and Homer. When the railroad was finished through Utica in 1860 the stage line became unprofitable and was soon discontinued.

About that time a telegraph line passed through the county from Zanesville to Sandusky. It was operated until 1865 when it was bought by the railroad company and taken away from here.

In our cemeteries there lie soldiers of every war of the nation. Samuel Edman and Nathan Comestock of the Revolution. Phillip Edman and Jacob Robinson of the war of 1812. Edwin Williams and General Jones of the Mexican War.

Probably the oldest man, at least from a point of continuous residence in Burlington township, was John Keeckley, who was born 84 years ago upon the farm where he still resides.  
Every candidate upon all tickets was in Homer yesterday, circulating among the crowds and distributing cards and souvenirs. Most of them marched in the parade in the afternoon.  
Judge Lewis B. Houck was at home in Homer, as his great uncles were pioneers of the village. He realized this and made his hearers realize it, when he took off his coat while speaking in the hot tent. This sensible informality was favorably commented upon.  
The Brownsville band furnished the music of this kind for the day, and their work was uniformly good. It is a good musical organization under capable leadership.  
The male quartette which furnished vocal music in the morning was made up of Dr. Allen Coburn, Rev. E. L. Wehrenberg, Messrs. Forrest Dean, Cliff Everett, Roy McLees, Roy Weaver, Kyle Parks and Ray Fraese. The women's double quartette which sang in the afternoon consisted of Mrs. Glenn McDevitt, and Miss Margery Fulton, first sopranos; Mrs. Will Blue and Miss Ethel Corwin, second sopranos; Mrs. Reese Patton and Mrs. Fred Wagner, altos; Mrs. Anna Wilyard, Mrs. Myrtle Bruce, contraltos. These singers formed a chorus of sixteen voices in the evening. Mrs. Archie Top presided at the piano.  
The following committees worked hard for the success of the features committed to their care: Program, Rev. W. D. Akers, Charles Snare, Clifford Everett; Music—Rev. E. L. Wehrenberg, Roy Weaver, Cliff Everett; Parade, Rev. E. L. Wehrenberg, Ray Fraese, and Cliff Patton.

## AUTO CLUB HAS GOOD TIME AT LAKE PICNIC

The Licking-Muskingum county auto picnic held at Buckeye Lake park was a success in every particular, although the crowd was not as large as had been expected. This was due in a measure no doubt to the many counter attractions in both counties.

Everyone present however, had a royal good time and thoroughly enjoyed the day. Over 1000 signatures were secured to petitions to the state highway department asking that a direct road be built from Hebron, O., to the lake, almost paralleling the interurban line. These petitions were in charge of Col. W. C. Wells, Hon. W. E. Miller, Samuel Alban

JOHN C. SWARTZ.

and Thomas Tabler. As each man registered he was given a number on a set of automobile tires to be awarded later in the day, the gift of the Pharis Tire and Rubber company of this city.

During the morning the Rotary Rube band of Zanesville entertained the picnicers with a number of selections. It was led by Fred Geiger, secretary of the Chambers of Commerce of that city. It furnished much amusement and was highly complimented by all. The band also played in the afternoon and evening.

Immediately after dinner and a concert by the band, the amusements and contests were carried out. The first was a hydroboat race between the "Wildcat" owned by John M. Gibney and the "Hesperus," owned by Harry Holbrook. The boats tied and the prize was divided.

While the crowd was waiting on the pier and along the shore the big hydroboat caused the waves to upset a canoe in which were a boy and a girl. Several young women in the water near the boat began screaming and the boy was seen to grasp the canoe, which was upside down. The girl struggled for awhile and then disappeared underneath the water. The crowd waited for her to come up and when she did not so a number became hysterical and when the canoe was turned over there was the smiling face of a young lad who had been dressed up in girls' toggery for the occasion. It was a clever stunt, arranged by Col. Wells.

The next event was a swimming race between three young ladies. The first prize was won by Miss Alice Carroll, second by Miss Hester Carroll and third by Miss Pearl Jones. Then came the canoe tilting contest and it furnished a great deal of amusement. Four young men in two canoes participated. Long poles padded on the end were used and the canoes were paddled close to one another and a boy in each boat jabbed the poles at his opponent until one canoe finally turned over and the occupants were thrown into the water.

George De Witte, known as the "Montana Kid" and feats of strength and then allowed an automobile to be driven over his body. The machine was driven by Dr. J. T. Lewis. Besides the doctor the car contained Dr. Wm. G. Corne, Howard C. Zimmerman and Harry D. Hale. The machine weighed 4100 pounds and as it passed over the man's body he never uttered a sound but immediately jumped up and executed a jig step.

In the evening at 8 o'clock the drawing for the tires took place in the Buckeye pavilion, three men acting as judges who did not hold numbers. A little girl drew them from a box and it was agreed that the twenty-fourth number should be awarded the tires. It proved to be \$047 but has not been reported as yet to the Pharis company.

The committee having the picnic in charge, J. R. Johnson of Zanesville, president, Harry D. Hale of this city, secretary-treasurer, and C. T. Marshall and P. R. Brehmer of Zanesville and Dr. J. T. Lewis, Col. W. C. Wells and M. J. Reese of this city, did everything in their power to make the day a success. They were disappointed at the inability of the state speakers to be present and were fortunate in securing the services of County Surveyor John C. Swartz, who addressed the members of the auto clubs later in the day.

John C. Swartz, Licking county surveyor, in the absence of officials of the Ohio Good Roads Federation, was impressed into service and kindly agreed to address the members of the auto clubs on good roads. Mr. Swartz had made no preparation, having no inkling that he would be called upon to talk, but his address was an excellent one. He said in part:

"Members of the Licking and Muskingum auto clubs: I was called upon at a late hour to give a talk on good roads. Talking is not my hobby, but good roads are, in fact I am very seriously interested in them. I believe that next to the public school the Good Roads question is the most important, and serious subject before the people of the state today; and what is more

you cannot have good schools without good roads. Why? Because unless a school is graded and divided into classes, you cannot have efficiency. I mean by that that the movement towards centralized schools is a good one, but you cannot have the centralized schools unless the pupils can reach it and it is an impossibility for children to reach school over impassable roads. There fore good schools follow good roads. What do you mean by good roads? Pikes, brick pavements, etc.? You do to a certain extent, but the good roads movement should start at your own door, that is with the by-roads, or the dirt roads. In fact the care and up-keep of the dirt roads is a very serious question because as a rule they are in the hands of the township trustees and the trustees will tell you they have not the money to care for them. That was true under the old road laws, but not so under the new, for there is hardly a township in the state that cannot raise from \$1,000 to \$10,000 a year more, than they have ever had for that purpose. The levy is made against all the property in the township paid to township trustees, spent by the township trustees for road purposes only, under the supervision of the county highway superintendent.

"For what should this money be spent? In the first place for the grading of the roads. By grading, I mean, to turn a one ditch road into a two ditch road, that is to have a ditch on each side of the road from two to three feet deep, instead of having one ditch right down the middle, where the farmer hauls his loads and you plow through in your automobiles. There are thousands of dollars wasted each year by the hauling of limestone and dumping it in mud holes, instead of grading the road and then applying the stone. But by grading and getting proper drainage first, the trustees will save money and get better roads to the inter-county and main market roads.

"The question of what kind of a road to be built is a very important one and is a question of economics. By that I mean that the kind and amount of traffic should absolutely control the type of highway built. After the type is decided then it should be a question of 'not how cheap, but how good.' Can it be built, as are cases that I could mention, where a few dollars saved by having a cheap inspector or none at all, or a thin layer of stone or a cheaper grade of concrete, or number 2 brick used, that in a very few years has cost the public ten times the amount saved. So I want to impress this again on your minds, that after you have decided to improve a road or build a bridge, see to it through your local authorities that it is done right, and in all construction aim to see how well it can be done instead of how cheap.

"In the construction of the improved or higher type of road, the most vital questions are, the drainage, and grading. The drainage because if you do not get the water and frost away from your road surface, no matter of what type it is, it will soon break up and go to pieces. Drainage is the hardest question an engineer has to deal with. The contractors as a rule are careless and will overlook more than any other thing. The farmers will object to the water being turned into their ditches and also object to deep ditches along their farms, thus at times making the most important part of the road construction impossible. As a result there are two places only to lay the blame in the eye of the public, either the engineer or the material shoulders, the blame and are condemned, and I have known such condemnation to come directly from the real cause of the failure.

"After drainage comes the grading. Now stop and think: how many times will grading be done? Only once. Therefore, don't neglect the first time. Cut your hills so that the farmer can haul a maximum load and you yourselves are not bothered by being perpetually forced to change cars. There is another reason to do your grading only once, that is because your road bed is settled and no matter how many times you resurface your road, you will have a good foundation, and everyone of you know that upon the

foundation of anything depends its success or failure.

"To return to the type of road surface to be used. As I said before, this should be governed by traffic conditions. And with that premise it is easy to determine the type of surface. Near the city use the highest and most durable type of pavement known, a few miles from town drop back to the next type and so on down the line of known types of road until you reach the gravel and dirt roads.

Now then suppose you have every road built according to these conditions in your country. Then comes the real question, the question of up-keep or maintenance. Maintenance comes last but not least. In fact it is in the thing which every auto club, every farmer and every citizen should be most interested. In my opinion any public official who neglects road maintenance is guilty of a crime and should be punished severely.

"In closing I wish to ask you all to insist upon your officials to see how well they can build instead of how cheap and also force them to maintain what you have."

## HOW TO REDUCE YOUR WEIGHT

A Simple, Safe, Reliable Way.

People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over stout people have to bear. If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from any good druggist a box of all of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days treatment has been reported to show a noticeable reduction in weight, foot-steps become lighter, your work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.

For all lumber call P. Smith Sons' No.

## DESPAIRING WOMAN NOW HAPPY MOTHER

**Mrs. Stephens Did Not Need The Surgical Operation.**

Patoka, Ill.—"I had been married five years and my greatest desire was to become a mother. The doctor said I never would have a child unless I was operated on for female troubles and I had given up all hopes when a friend told me of Lydia E. Pinkham's Vegetable Compound. I took it regularly for sometime, and I am

in better health than ever, and have a healthy baby girl. I praise your Vegetable Compound for my baby and my better health. I want all suffering women to know that it is the sure road to health and happiness."—Mrs. GEORGE STEPHENS, E. F. D. No. 3, Patoka, Ill.

Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills because it contains the tonic, strengthening properties of good old fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration.

Big Clam Bake.  
Invitations has been received in this city to attend the big clam bake to be given by Martin Elks in the Leeper grove north of that city next Wednesday. There will be a band of forty pieces and other amusements during the day. The clam bake will be under the direct supervision of an expert from Providence, R. I.

Cabbage Scarce.  
Licking county gardeners state that cabbage will be scarce in this vicinity owing to the ravishes of hot weather and cabbage worms. Kraut plants will open next week in the vicinity of Clyde and Fremont and growers have already begun to haul their crops. The price of kraut will soar because of the shortage of cabbage.

Stag Outing.  
The members of the Buckeye Lake Yacht club and their friends will enjoy a stag outing at the lake on Sunday, Sept. 3. They are requested to be on the pier at the club house not later than 11:30 a. m. There will be many special features of entertainment including a fine dinner. All who attend are promised a fine time.

On Southern Trip.  
Dick Curry, proprietor of the Arcade barber shop, and Charles Harris, solicitor for the Newark Telephone company, will leave this evening for a trip to Knoxville, Chattanooga and Asheville, N. C. They expect to be gone for two weeks and will devote considerable time to sight-seeing and trying their hand at fishing in the Tennessee and Holston rivers.

Police Court.  
Two drunks, one loiterer and a woman arrested charged with being drunk and using profane language, were arraigned in police court this morning. The three men each were fined \$5 and costs and the woman \$5 and costs on one charge and \$1 and costs on the other. All were sent to the county jail.

Police Find Bicycle.  
A new place has been found where one can lose that which one does not care to own. A Franklin addition woman called police headquarters this morning and said a bicycle had been left in her yard and she wanted it taken away. The wheel was taken to the patrol station to await identification by its owner.

Back From Convention.  
Hon. W. D. Fulton, Democratic candidate for secretary of state, returned today from the Elk state convention which is being held at Cedar Point. Mr. Fulton was kept busy greeting his friends and last evening was one of the speakers at a finely appointed banquet at The Breakers. He was given an ovation upon leaving for this city, one of the bands accompanying him to the pier with a large delegation of members of the antlered herd.

Newark Boy Prospects.  
Fred D. McQueen, former Newark man, writes from Lyman, Wyoming, paying his dues in Newark Lodge, No. 97, F. & A. M. and states that he often thinks of his old Newark friends. He is prospering in the West, having three general stores, one in Lyman, another in East Fork Wyoming and a third in Mosca, Col. He states that he is looking forward with pleasure to a promised visit of Henry S. Fleek who expects to make a western tour soon.

Takes New Position.  
Miss Leona Eagan, has returned to Newark after spending three weeks in Chicago at the millinery openings. Miss Eagan has taken a position with the Clouse & Schaeffer millinery store as head saleswoman.

Game Asso. Sends Delegate to Big State Meeting.  
George Conway, member of the Licking County Fish and Game Protective Association today was named delegate to attend the meeting of the League of Ohio Sportsmen at Columbus Thursday of state fair week. Legislative questions of interest to sportsmen will be discussed. Mr. Conway was selected at a meeting of the board of directors of the association held in the Park National bank. The meeting was attended by the entire directorate and Mr. Mosser, of the chamber of commerce, by invitation gave a short talk to the directors. Mr. Mosser emphasized the importance of cooperation, pointed out the things which the chamber of commerce and the game protectors could unite upon and told them of things accomplished by such organizations in other places. He urged the association to consider the education of boys and girls in the principles of the organization.

Milwaukee's municipal employment bureau secured work for almost 19,000 people last year.

## Light as Chaff

She Was a Woman.  
Anna, the old family servant, was sitting with her foot propped on a chair when the daughter of the house entered and, impressed with the enormous size of the woman's feet, asked what size shoe she wore.

"Well, Miss Cora," replied Anna, "Ah kin wear eights. Ah ginerly wears nines. Dese yer Ah's got on now am twelves, an' de good Lawd knows dey hu'ts me."—Country Gentleman.

Hardly Ever Alighted.  
The girl was attempting to dance with a fat man who couldn't. The fat man was a great bungler, and he knew it. He gasped as she hobbled about.

"It's awful kind of you to dance with me—the worst dancer in the room!"—Then he trod on her foot for the sixth time, and the girl replied: "Oh, how can you say so? Why, you hardly seem to touch the floor!"

True Love.  
About a year after Jim Smith got married his wife said to him one night: "Jim, you do not speak so affectionately to me as you used to when we were first married. I fear you have ceased to love me."

"Ceased to love you?" growled the man. "There you go again. Why, I love you more than life itself. Now shut up and let me read the baseball news."

Irish Ingenuity.  
An officer in an Irish regiment was much amused by a conversation which he overheard between two of his men who were watching the ascent of a captive observation balloon. One of them remarked that he would much rather be in the trenches than up aloft. "Sure, it's safe enough," answered his pal. "But plawat the blazes would ye do if the thing busted?" persisted the other. "Do?" was the consistent reply. "Why, slide down the rope, of course, ye fool!"

## 300 ATTENDED PICNIC HELD BY DAIRYMEN

More than 300 people yesterday enjoyed the second annual picnic of the Licking County Cow Improvement Association, held on the "Eagle" farm, owned by J. C. Stevenson, near the four mile locks, on the Hebron road.

The day was spent in participating in a general good time and to discussing the work of the association and the upbuilding of the agricultural and dairy business in the county. J. C. Stevenson, president of the association presided at the meeting.

The Newark chamber of commerce was well represented and Manager G. H. Mosser, Homer C. Price and William Hall of the agricultural bureau; Harry Davis, of the Licking Creamery, were the Newark men slated for addresses. Chairman H. F. Darrow and W. J. Bowers, of the convention and publicity bureau also were present. Other speakers were L. P. Bailly, of Tacoma, O., president of the Ohio State Dairymen's Association, and D. L. Perry of Columbus. Mr. Bailly is a pioneer cattle breeder dealing in Holsteins and Mr. Perry is a well known live stock auctioneer.

A six-piece orchestra furnished music throughout the day and at noon an elaborate feed was spread for the visitors.

Mr. Mosser, the first speaker, talked on "The Country As Viewed By the People of the Town."

The need of the farmers' appreciation of the necessity of uniting the country and the city and an appeal to their understanding and judgment in bringing the town and the city together in their marketing were points made in the talk.

Mr. Bailly picked up the subject where Mr. Mosser had left off and gave a lengthy talk on the country people absorbing instead of thinking. He urged greater work in the markets and said the farmer must change his position to meet the changing conditions.

"Graduate the poor stock and get a higher standard," he said. "Better stock make better product and better product means better profit and a larger market."

Following the speeches the visitors were taken for an inspection of the barns, the milk houses, all of which were painted white and of the many heads of thoroughbred cattle.

The officers of the association are: J. C. Stevenson, president; Frank Osborne, vice president; W. C. Miller, secretary and treasurer.

## Granville

[Special to The Advocate] Granville, August 25.—Marshal Joe Shipley is after all bicycle riders who trespass on the sidewalks—though why any one should voluntarily encounter the ups and downs of these famous sidewalks is beyond comprehension.

Have you sent in your limerick for the contest this week? If it is a good one you will find it printed in the Melting Pot department of this paper Saturday, even though not awarded the dollar.

Miss Helen Hunt of Boston, daughter of former President E. W. Hunt of Denison is in Granville for a few days, at the home of her aunt, Mrs. Helen Hunt in Park Drive. She accompanied the Dr. Mitchell funeral party from Canada. Dr. and Mrs. Hunt who were in camp at the time of the accident have returned home.

Mr. and Mrs. Clifford Case are enjoying their vacation at Lakeside on Lake Erie.

Miss Florence Brumback and Miss Ruth Herrick of Chicago are the guests of Granville relatives for a few days.

Contributors to the Granville public library during the past month were: Mrs. Jacob Speicher, Mrs. D. C. Gilmore, Mrs. J. E. Megaw and Dr. Zella A. Dixon.

Mayor Coons concedes that a good deal of work has been done on Broadway, and well done. The point of his and of the council's contention is that the contractor doesn't keep his promises to finish as he goes.

Mr. W. H. Lisle and his sister Miss Dora O. Lisle were among the Granville friends who attended the funeral of Dr. J. A. Mitchell in Newark this morning.

Mrs. Marie Sinsbaugh is entertaining a number of the young friends of her daughter Miss Grace, whose wedding is set for September 12. On Wednesday evening, Miss Jessie Burns was honor guest at dinner. On Thursday evening Miss Mildred Woodard of Newark, and for the week-end Mrs. W. B. Condit and daughter Miss Helen of Pataskala will enjoy the hospitality of the home in East College street.

Miss Bess Howe, kindergartner, of Los Angeles, Cal., who has spent the summer at the home of her parents, Mr. and Mrs. Howard W. Howe, expects to leave on Monday—via Toledo where she has friends—for the journey to the Pacific coast.

Mrs. B. C. Belt went to Cleveland where she is visiting the home of her brother Mr. O. H. Carey, for a week or two.

Mr. and Mrs. C. B. White have returned to their home on Mt. Parnassus from their annual outing at their summer home in Brevort, Mich. They report unusually hot weather even there.

Mrs. C. B. Clark is entertaining the local chapter of the D. A. R. this afternoon at her home in Cedar street.

Mr. and Mrs. Henry R. Colby are rejoicing over the arrival of a splendid 11-pound boy, on August 16. Mr. Colby has taken over the Delco company business in Memphis, Tenn., and Mrs. Colby who now is at her old home in Springfield, will join him there some time this fall.

The Egyptian culture was the chief scavenger of the land of Pharaoh.

## Bring Out Your Hidden Beauty

Beneath that soiled, discolored, faded or aged complexion is one fair to look upon. Mercolized wax will gradually, gently absorb the contaminated surface skin, revealing the continually fresh, white and beautiful skin underneath. Used by refined women who prefer complexion of true naturalness. Mercolized wax in one ounce package, with directions for use, is sold by all druggists.

## TRAVELING MAN PUTS CASE WELL

TELLS HOW TO FORTIFY YOUR SYSTEM BY USE OF NERV-WORTH.

This endorsement was given in at Marietta some time ago: "I have one special reason for making this statement that is to put the people wise to a good thing. For 20 years I have been a traveling salesman, selling country stores in several southern states. I was up against all kinds of conditions and the most disagreeable places to eat, where everything was cooked in grease."

"For five years I have been a chronic dyspeptic, so roughly I never smiled except while talking with my customers. I had periodical headaches and a constant feeling of weariness and nervousness. I became discouraged, quit my job and came north on a protracted visit, thinking the change would prove beneficial. "Just after coming here I bought a bottle of Nerv-Worth from Mr. Richardson (Nerv-Worth distributor at Marietta), took it all, felt much better, bought another bottle and now, having taken the second bottle, I am so much improved that I am going south again and go back to work with three bottles of Nerv-Worth to fortify my system against hog, hominy and cottonseed oil." (Signed) "E. J. Bellkamp."

Thos. J. Evans, the Warden block druggist, sells Nerv-Worth and returns your dollar—benefits fall to come.—Advertisement. 8-25-28

## BE PRETTY! TURN GRAY HAIR DARK

Look young! Nobody can tell if you use Grandmother's simple recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Weyth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## PHYSICIANS BEAR BODY TO THE GRAVE

Fellow Practitioners of Dr. Mitchell Attend Services in a Body—Funeral Largely Attended.

The funeral services of Dr. John A. Mitchell, were held this morning at 10 o'clock from the home, 59 Hudson avenue, Rev. Don. D. Tuill, assisted by Rev. Robt. Vost, of Greenville, Tenn., officiating. Interment was made in Cedar Hill cemetery.

A short time before the services a large body of leading Newark business and professional men, met at the Y. M. C. A. building and attended the funeral in a body.

The pall bearers were Drs. G. D. Arndt, of Mt. Vernon, D. V. Ireland, of Wilmington; O. W. F. Lewis, of Utica; Clark B. Hatch, Harry E. Hunt, U. K. Essington, H. J. Davis and J. P. Latimer of Newark.

## NEWARK MAN HEADS DISTRICT LUTHER LEAGUE

Zanesville, Aug. 25.—The retiring officers of the Zanesville district Luther league, were re-elected at the 16th annual meeting Thursday afternoon at St. John's church. F. W. Wolverton of Newark, again heads the organization and other officers are as follows: Recording secretary, Miss Carrie Smoke, Zanesville; corresponding secretary, Miss Mabel Snyder, Newark; treasurer, H. G. Carrell, Roseville.

The evening session was replete with interest. The address of the evening "Ideals," was delivered by the Rev. George B. Schmitt of Newark. Selections were rendered by the choir and the whole assembly joined in singing the Martin Luther rally hymn.

Eight counties were represented at the gathering by about 75 delegates. The counties included were Muskingum, Perry, Licking, Morgan, Coshocton, Guernsey, Holmes and Tuscarawas. Both dinner and supper were served at the Coffee Kitchen.

The convention sermon was delivered at the morning session by the pastor of the local church Rev. Paul R. Clebert, who discussed the league motto, "Of the Church, by the Church, for the Church." The address of welcome was made by Ralph M. Christman, president of the local chapter, and the response was made by the district president, F. W. Wolverton of Newark.

The Rev. G. H. Schuur of Zeilenople, Pa., publisher of the Luther League Topics, was present and delivered a brief address.

The convention was one of the most enthusiastic and interesting ever held in this city.
